TODAY, AND WITH CLASSBASE

Awareness training never stops.

Neither does the follow-up. Three jobs every entity knows, done today and with Classbase.

THE ANNUAL LOOP

Awareness renews itself.

Set it up once. Each year Classbase enrolls, reminds, tests, certifies and enrolls again on expiry.

 BUILD FROM A POLICY

From your policy to a draft course.

Upload the policy or the circular. The AI proposes modules, cards and practice questions.

Clara Rossi keeps or discards each module, then publishes

ACROSS DIRECTORATES

A few minutes between two meetings.

One card at a time on the phone. An AI tutor answers in their language, and daily review brings the steps back.

ASSIGN AND FOLLOW UP

Enrolled, reminded, followed up.

A smart group enrolls new hires on its own. Reminders go by email and in the app, and automations chase the rest.

PROVE IT

Proof they can do it.

The AI plays an upset visitor and grades the conversation on your criteria, with a reason and a quote. Unsure grades go to a trainer.

- ✓ Final test from a question pool
- ✓ Pass mark, and the tutor is off
- ✓ A certificate anyone can check

Every directorate, in one report.

Questions

Can we see training by directorate?

Yes. Each person has a department, job title and employee ID, and smart groups follow them. Reports and the copilot answer by directorate.

Does it help with excellence and performance reviews?

It helps keep the training evidence these reviews ask for: who completed which course and when, test scores, certificates with their codes and attendance. Classbase holds no approval or accreditation from any government body.

How are new employees onboarded?

A smart group enrolls them in an onboarding program when they join. Sections open on enrollment, after some days or on a date, with a certificate at the end.

Who approves what the AI writes?

Your training team. The AI drafts modules from your policy, and a person keeps or discards each one and publishes. Staff see nothing before that.

Can the AI act on its own?

Only where you allow it. For each kind of action you choose Do it, Ask first or Never, the server enforces it, and every AI run is logged.

How does annual awareness renew?

Each certificate is valid for the period you set, for example 12 months. When it expires, Classbase enrolls the person again and reminds them by email and in the app.

Is it in Arabic?

Yes. Every screen is in Arabic (fully right to left), English and Turkish, and the AI translates courses with a glossary per course and per organization.
